

Publication Checklist

Before upload

Confirm the latest PDF version number, publication date, medical-review status, links, file names, and page count.

Medical review

A qualified clinician, registered dietitian, diabetes educator, or appropriate reviewer should review each guide before broad clinical or partner distribution.

Technical review

Open each PDF on desktop and mobile, print a worksheet page, check links, verify file size, and confirm no text or graphics are clipped.

Website review

Confirm download buttons are keyboard-accessible, have descriptive alt text, and include analytics data attributes without personal health information.
