

README First

What this package contains

Five Mindful Diabetes Free Guides in print and web PDF versions, editable source files, generated visual assets, website assets, research manifests, accessibility notes, and licensing documentation.

Where final PDFs are located

Each guide folder contains `Final\_Print\_PDF` and `Final\_Web\_PDF`. Web PDFs use the public file names intended for download cards. Print PDFs include `-print` in the file name.

Editable source

Editable source is stored in each guide's `Editable\_Source` folder. The current editable format is Python/JSON production source plus original image assets. This preserves the complete layout and content generation path.

Logo and fonts

The active Mindful Diabetes logo from `static/img/mdi-logo.jpg` is used. Headings use Lora. Body text uses Lato. Font files are included under `01\_Brand\_Assets/Fonts\_Reference`.

Review dates

Published: July 30, 2026. Last medically reviewed: pending. Next scheduled review: July 2027, or earlier if ADA, CDC, AHA, FDA, USDA, or federal guidance changes.

Accessibility status

The PDFs include selectable text, metadata, descriptive links, bookmarks, and documented alt text. Full PDF/UA tagging should be completed in a dedicated remediation tool before broad clinical distribution.

Recommended upload order

Upload web PDFs first, then cover previews and thumbnails, then create the Free Health Resources page, then connect analytics tracking on download/open/share/newsletter/donation events.
